

Give the Birds an Easter treat with this simple bird feeder!!

If you can go for a walk in the woods as part of your daily exercise gather up a few pine cones as we want to share a nice simple little craft that you can do with the kids and give the birds an Easter treat.

You will need peanut butter, bird seed, pinecones and garden string.

- Use a spatula to dab peanut butter all over your pinecones
- next hold your cone over a large bowl and pour bird seed over it until the whole cone is covered.
- Finally tie a piece of your string tightly around the top of each of the pinecones and they are ready to hang in the trees!

Share photos of your pinecones and any of your Easter visitors.
